RESEARCH METHODOLOGY: TOOLS AND TECHNIQUES

Unit 2: SCIENTIFIC METHOD ... In engineering research it often includes the design of a prototype / system architecture. Identify the variables that will be manipulated and measured “ the research outcomes must be measurable. In other words: What needs to be controlled in order to get an unbiased answer to the research question. ©L. M. Camarinha-Matos, 2009-2012 23 Therefore: it is ...

Design Methodology for Research and Development Strategy

Problem solving skills are essential requirements for engineers. When complex theoretical and technical problems are solved, new knowledge is created. In this course you learn how to apply the engineering research process and methods of inquiry to solve these problems. This involves critiquing current research in your discipline and developing competence in using instruments and software to ...
